

iRecliner™

Putting the Power of Comfort in Your Hand

iRecliner lets you easily control the power motion of your recliner or sofa with just the touch of your finger. Separate functions allow for custom comfort for power recline, power headrest, and optional lumbar feature. With our two memory settings, you can automatically find your perfect comfort setting

Motion Recline Features:

- Easily connect to your product by Bluetooth
- Touch control for headrest
- One touch recline control
- One touch control for lumbar (optional on some models)
- Two preset memory settings
- Ability to name seat by person or type
- App automatically detects and adjusts to your model and functions
- Built in safety function will only allow one user per seat at a time. Press and release HOME safety function prevents accidental closing.
- Built in HELP function

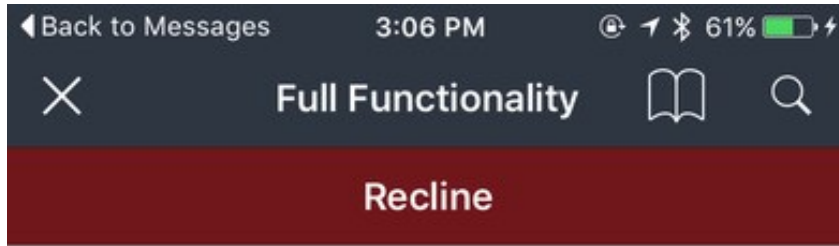

Initial Setup Instructions

Single Seat

- Make sure the furniture is plugged into the wall outlet.
- Download and open the iRecliner app.
- The app will open to the “Available Devices” screen and the product will show as “My Seat”.
- Choose the product by touching “My Seat”.
- The “Name Device” screen will open : you can rename the seat as desired.
- Choose “Save & Connect”
- The next screen that is displayed is the control screen, from which the seat can be operated.

Multiple Seats

- Make sure the furniture is plugged into the wall outlet.
- Download and open the iRecliner app.
- The app will open to the “Available Devices” screen and all of the seats of the product will be displayed. All seats will be named “My Seat”.
- Choose one of the “My Seat” options.
- The “Name Device” screen will open, press “Save and Connect”. This is how you will identify which seat on your product you are connected to.
- Touch the open book icon at the top of the screen. 
- This opens the “Saved Devices” screen. One “My Seat” should be displayed.
- Edit the device name by swiping left to right on “My Seat”.
- Choose “Edit”.
- Rename the device to the desired name; i.e. “Sofa Left Seat”
- Choose “Save”. This takes you back to the “Saved Devices” screen.
- Touch “Back” at the top of the screen.
- Touch “X” at the top of the screen to disconnect from the current seat and return to the “Available Devices” screen.
- Choose the next “My Seat” and repeat the steps until all seats have been renamed.
- Once all seats have been renamed, return to the “Saved Devices” screen by touching the open book icon.
- Choose the desired seat.
- The next screen that is displayed is the control screen, from which the seat can be operated.
