I hope that you, your families, and your employees have remained safe and healthy during this public health crisis that has caused such an unprecedented disruption. While we have been unable to interact with you in the traditional manner, our team has enjoyed staying connected with you virtually including the many Zoom Meetings taking place across the country.

Today I am pleased to inform you that Southern Furniture Industries’ (Southern Motion, Inc. and Fusion Furniture, Inc.) is restoring its production capacity. We will be resuming operations at all our Mississippi based manufacturing locations on May 4, 2020. We will be returning to work with normal lead times and focused on completing work-in-process, existing backlog, and supporting new customer orders as the economy begins to reopen.

During this pandemic, our top priority has been on the health and safety of our associates and we have followed all guidelines from the Centers for Disease Control and Prevention (CDC) and the Mississippi Department of Health. In addition, we are implementing several new steps to protect our associates’ as we restart operations including associate screening, additional Personal Protective Equipment (PPE) such as masks, increased cleaning frequency, and further social distancing protocols.

Since my last communication over a month ago, much has changed in the world impacting our industry and our daily lives. Rest assured, one thing has not changed, our commitment to supporting our retail partners and providing the best value in stationary and motion furniture made in America.

Sincerely,

Roger A. Bland
